Fields

#	Field Name	Data Type	Field Size	Description
1	Fac_Code	Text	7	Facility Code - points to the facility file
2	P_Date	Date/Time	8	Processing date - must be a monthly period from the period file (requires a software check)
3	Prod_Name	Text	100	Product Name - points to product file
4	Prod_Dose	Text	14	Product Dose - points to product file
5	lngCatProductID	Number, Long Integer	4	The Category product ID
6	lngProductID	Number, Long Integer	4	The Product ID (to Replace the Name & Dose)
7	Open_Bal	Number, Long Integer	4	Opening Balance - should equal last month's closing balance (requires a software check)

8	Receipts	Number, Long Integer	4	Receipts - should equal last month's quantity received from supplier at end of month order (requires a software check)
9	Issues	Number, Long Integer	4	Quantity issued to other facilities
10	Dispensed	Number, Long Integer	4	Quantity Dispensed to Users
11	Adjustments	Number, Long Integer	4	Any adjustments to stock balances (losses, expiry, etc.)
12	Adj_Type	Text	1	Adjustment type - points to adj_type file. Each entry can have only a single type of adjustment
13	Closing_Bal	Number, Long Integer	4	Closing Balance - should equal opening balance + receipts - issues + adjustments (requires a software check)
14	6MO_Balance	Number, Long Integer	4	????
15	Err_OB	Yes/No	1	Error flag set by software when it the opening balance field does not equal last month's closing balance
16	Err_CB	Yes/No	1	Error flag set by software when the closing balance field does not equal opening balance + receipts - issues + adjustments
17	DE_Stat	Number, Integer	2	Data entry Status (what is this used for??)
18	New_Visits	Number, Long Integer	4	Visits by users new to this method this period
19	Cont_Visits	Number, Long Integer	4	Visits by users continuing this method this period
20	Err_qty_rqrd	Yes/No	1	Error flag set by software when the quantity required does not equal the ???
21	Err_qty_rcvd	Yes/No	1	Error flag set by software when the quantity received from supplier at the end of month order does not equal the following month's reported receipts
22	Err_AMC	Yes/No	1	Error flag set when the average monthly consumption entered on the form is not calculated correctly
23	Avg_mnthly_cons	Number, Long Integer	4	Average monthly consumption as calculated by the person filling out the form
24	Qty_required	Number, Long Integer	4	Quantity required to bring stock level up to maximim months of supply. Should equal (average monthly consumption * maximum months ofsupply) - ending balance (requires a software check)
25	Qty_received	Number, Long Integer	4	Quantity received from supplier at end of month order - should equal the next month's reported receipts (requires a software check)
26	ci_ctrItemID	AutoNumber, Long Integer, Increment	4	Unique Autonumber for the products
27	txtNotes	Text	255	Notes for this record
28	Qty_OnOrder	Number, Long Integer	4	The Quantity On Order (for Qty on Order Use)
29	Err_qty_DispVsPurpose	Yes/No	1	Error flag set by software when Quantity Dispensed is not equal to the Sum of the purpose of Use.
30	Qty_OnHand	Number, Long Integer	4	The Quantity On Hand at Time of Visit (Zimbabwe)
31	fStockedOut	Yes/No	1	Set to true (by user) if product was stocked out during the period
32	Avg_mnthly_consALL	Number, Long Integer	4	Average monthly consumption as calculated by the person filling out the form from all Facilities serviced by a DHO
33	DispensedALL	Number, Long Integer	4	Quantity Dispensed to Users from all Facilities serviced by a DHO
34	PC_LastMonth	Number, Long Integer	4	Last month's physical count
35	NoDays_StockedOut	Number, Long Integer	4	Last month's physical count
